

REMARKS

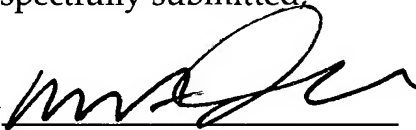

This application is a continuation of U.S. patent application number 10/315,215, filed December 10, 2002, entitled NMR Analyzer, which has been incorporated by reference in its entirety.

The specification has been amended in order to provide the required reference to the parent application. Claims 10-13 have been amended. Claims 7-13 are now pending in this application. Claims 1-6 and claim 9 have been cancelled without prejudice, as they are pending in a related application. Favorable action on this application is respectfully solicited.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application to issue.

Dated: December 2, 2003

Respectfully submitted,

By
